

A Clarion Call to Preserve Liberty

A call to unite in fully resuming our normal life now

Dick Pence - Big Sky Worldview Forum

Perspective & Challenge:

A realistic perspective: Germany moved from liberty to Hitler's control in just a few years because of two factors – indoctrination and fear. Like 1930's Germany, America has been indoctrinated to accept more and more government control of our lives.

I believe we must each now answer Patrick Henry's question who said "[Give me liberty or give me death.](#)" Henry asks...

*"What is it that gentlemen wish... **Is life so dear, or peace so sweet, as to be purchased at the price of chains and slavery? Forbid it, Almighty God!**"*

Those words need to burn in our spirits and we need to ask them of our leaders. We have traded liberty for security, something the Founders and early Christians would never have accepted. Early, when resistance could have worked, Germans were complacent. Later, after fear prevailed and they had been stripped of their personal defenses, it was almost impossible. (See appendix) Most of the German churches sided with Hitler. A respected Lutheran Pastor friend who visited Germany recently tells me there *is little evidence of a robust Christian faith in Germany* and we know they are anything but solid allies to America.

Some have hibernated, not paying any attention to the news. It's time to connect. Cable news is bad and Tucker Carlson is one of the few I trust at Fox now. But you must be informed.

Relative to the current COVID lockdown, with all the talk of opening, it is obvious that the LEFT - hungry for power - is pushing for even longer shutdowns and more restrictions. The *conditioning of the public* that is happening is stunning and intentional as I will demonstrate later. We have increased the national debt by \$3T and they are talking another \$3T – adding about \$18K to every citizen's share and boosting it to about \$80K. Yesterday a Democratic Congressman screamed

“Look at the people in food lines, we need more money.” Congressman, that money can only come from one source, Communist China because we are broke.

So, the question is, where is the bottom of the barrel and where would **YOU** draw a line in the sand? I can tell you, with these globalists, there is no bottom.

A realistic challenge: As we look at our current lockdown, how do we move forward to reopen? **I am asking “we the people across” of Montana to join together and take back their country!** Tomorrow we resume normal life – the old normal. We reopen businesses, we fully open restaurants and similar venues with no restrictions, we resume normal church services, we open sports events and schools. If you work in an office, **YOU** be the one to return to that office. We stop supporting the Chinese company ZOOM. **And, we let people make their own choices** as to what they participate in. We **don’t ask permission**; we don’t demonstrate we just quietly go back to life.

Shameful intimidation and bullying from leaders have taken us to the brink of moral and financial bankruptcy. When the Founders wrote the [Second Amendment](#) and said “Congress shall make NO law” they meant NO law affecting ***free exercise***, not just of religion, but *speech, assembly, and petition* of the government. In the last 90 days, you have been bombarded with exception but there are none. Governments at all levels have written their own exceptions. In his article [Judge Andrew Napolitano: Coronavirus fear lets government assault our freedom in violation of Constitution](#) begins with this quote:

“The Constitution of the United States is a law for rulers and people, equally in war and in peace, and covers with the shield of its protection all classes of men, at all times and under all circumstances.” – Ex parte Milligan, U.S. Supreme Court (1866)

There is **no law** that says you have to wear a mask anywhere. If you go to Costco, they can’t make you wear a mask – it’s your choice whether you shop there. Your employer may request that you wear one. Public health officials have authority to quarantine the sick, they have **no authority to quarantine the healthy**. Unless you have been living in a manhole, you have heard about businesses being stripped of their business licenses for non-compliance.

We have followed these Doctors like sheep following the Pied Piper and they have been **wrong about almost everything**. For Christians that think that blind obedience to government has replaced [The 1st Commandment](#), I ask you to read my last piece [COVID-19 - When America Embraced Socialism Without a Whimper](#)

So, how have we gotten to this point in America? Allow me a couple of arguments.

A Seismic Shift - When morals decline, valor and fortitude follow:

Fifty years of moral decline since the sexual revolution of the 60's has birthed a people who are losing their mettle – their [valor](#). If you're wondering why there seems to be a general spinelessness look no further for the cause than our loss of virtue and decades of the church standing for... nothing.

In [The Abolition of Man](#), C.S. Lewis talks about “**Men Without Chests**” referencing men that lack ethics - morals. A reviewer writes:

*Lewis trains his laser-sharp wit on a mid- century English high school text, considering the **ramifications** of teaching British students to **believe in idle relativism**, and to **reject "the doctrine of objective value, the belief that certain attitudes are really true, and others really false...** Lewis spends much of the book explaining why society needs a sense of objective values.*

While Lewis's focus is moral ethics, it is obvious that these men without chests who lack virtue would quickly lose resolve in other ways. **We have lost our self-respect**, we have lost our identity, we don't know who we are and don't seem to care anymore. What's the difference between living with socialism instead of liberty? Give me my cell phone, my recreation and a roof over my head and don't bother me.

Barna Research told us a decade ago that only 9% of Christians embrace a Christian worldview. The remaining 91% embrace some blend of secular-relativism-Christianity-soup. Sadly, now, many of the 9% are falling for the shutdown because they don't understand the [compatibility of the constituting and Christian theology](#). (See *The Constitution, the Bible, and the Colonies: Understanding their Theological Roots p.8*)

It is impossible for me to express how unprincipled I think the American response to the shutdown has been. Unemployment is approaching 20%. One in four

restaurants will be lost. The food lines are long in America. People in some countries are starving. So far, we have lost over 30 million jobs and estimates are that 40% of those will never come back. It would take a historian volumes to outline the damage this has caused.

Now what you hear from every corner of society is **compliance** – when the government says jump, we only ask, “how high.” If you have studied Agenda 21/2030 and globalism at all, you know that their goal is to create ***the compliant global worker*** who just does what he is told. That is the warp and woof of what Common Core Education is designed to create. Globalists Bill and Melinda Gates have given us this gift. All the complaining about how the standards were lower – that’s OK. Our kids don’t need an education, they just need to know how to screw their bolt on in the assembly line and do what they are told to do.

The LEFT will use anything to gain power, and we are giving it to them in spades. They were counting on climate change to break the American economy. Now they don’t need it – we have handed it to them on a silver platter with the COVID response. Millions of use-to-be principled people have gone along with this. They have sold the soul of America for their personal safety.

Yes, and Right here in River City – the Montana Picture

An engineer friend sent two letters to the Billings City Council. In his first one he outlined how the flu was over 8 times the threat COVID has been in Montana. In the second letter he gives the [current status in Montana](#) writing in part:

Of the 1,086,759 people in Montana, 459 have contacted COVID-19. That means 1,086,300 (99.96%) did not. Of the 1,086,759 people in Montana, 16 died. That means 1,086,743 (99.9999%) did not die from COVID-19.

Question: [to Billings Council and YOU] *Given these facts (data), what models, statistics and/or political opinions **should prevent our City, County and State Governments from immediately re-establishing normalcy to our citizens?***

Like me, he believes that we never should have shut down the country and that this should never happen again. Never, Never, Never.

Those in favor of the shutdown have used the emotional appeal that the most important thing of all is to save lives. Few have dared to resist this. However,

even a moment of clear thinking brings us to a historical reality. If safety and security were the bottom line – the most important value - then every group in history who fought a war to secure liberty was wrong – just insensitive, uncaring people. So out the window goes the war for independence, the war to stop slavery, the war against Hitler... shall I go on?

Globalists and Their Exploitation – Was All This Planned?

To explain globalism is beyond the scope of my writing here. If you are unaware of this, there are plenty of resources available. On April 19th Pastor Danny Jones of Northlake Baptist Church in Gainesville, GA did an excellent teaching [Is the Corona Virus a Sign of the End Times?](#) This, I highly recommend to you.

Pastor Jones points out that for more than a century a billionaire class elite has been working to create a global one world government. Globalists efforts to form the League of Nations failed and after WWI they succeeded in forming the United Nations. Unfortunately, our legislators continue to turn a blind eye to the anti-American and globalist agenda of the UN.

Jones says he does not believe that COVID-19 is necessarily a sign of the end times but he considers it **a dress rehearsal - to work out the bugs** and get all the nations ready for this one world government. For the last three months these globalists have manipulated us using the Marxist-Hegelian Dialectic. Simply put - problem, reaction, and solution. They cause a crisis, wait for our reaction, and then give us THEIR solution that always involves more government control.

Jones walks you through the progression of this virus at the same time documenting the Globalist, New World Order players and their agenda. Donald Trump opposed their agenda with his make America first talk and they set out to destroy him. [Henry Kissinger](#) wrote about how this virus would lead us to the New World Order and how Gates would be the gate keeper. Bill Gates is the major player; his pet projects are population control and vaccinations as a sub-set of population control. In 2017 Bill spoke at a world globalist conference rolling out a new working group called CEPI – the [Coalition for Epidemic Preparedness Innovation](#). Three years ago – think about that! He also started work on the movie *Pandemic* which Nancy and I watched – talk about fear mongering and setting people up. **Is this coincidence or is Gates a prophet... or was it a plan?**

Last fall Gates and Michael Bloomberg (who ran for president) participated in a pandemic exercise [Event 201](#) at John Hopkins. A Chinese scientist was involved.

I will let you follow the rest of what pastor Jones discloses. He only mentions Dr. Tony Fauci once, but the time line this man was involved in is sobering. If you have followed this issue at all, you know that Fauci and Gates play on the same globalist team. Fauci has been committed to the globalists cause for years and it is naive to think that professionalism would trump ideology.

Bottom line, this virus scare is a manufactured crisis designed to deceive people and set them up to move towards global government.

The Mystery of Inequity and the Mark of the Beast

For those who might not be aware, the book of Revelations chapter 13 speaks of a mark that people will be required to accept if they are going to be able to buy, work, or sell in society during the last days. It has been amazing to me that even those who would not be familiar with this idea quickly see how some sort of mark that you have taken a certain vaccine could be used to screen people for participation in a society.

Think about all that we have accepted in the last month – global problems require global solutions. Pastor Jones carefully outlines how this virus and its treatment could become something that could easily convince us to accept a mark showing that we are safe to be around and safe to operate in society.

In December, 2019 the *Scientific American* reported a plan from Bill Gates and M.I.T. to develop a [biometric tattoo](#) where a chip can be injected into your arm at the same time you are being vaccinated. Then your arm can be scanned to reveal your vaccination history and potentially, much, much more. The mystery of inequity (II Thessalonians 2:7) is already at work. **The question is not what can they do but what will YOU DO?**

Appendices – Alexander Hamilton on the 2nd Amendment

[In Federalist No. 28, Alexander Hamilton](#) affirmed the importance of the “original right of self-defense which is paramount to all positive forms of government” and conceded that, [in extreme circumstances](#), it may even be asserted legitimately “against the usurpations of the national rulers.”

Translation? The original intent was to arm the citizenry against the dangers of their government going rogue. That is why Socialists have always first endeavored to disarm the public.

Our leaders must be reminded that there is a higher law than them. They must also be reminded that peaceful, civil disobedience – while always the desired tool - is not and will not be our final tool if need be.
