

From Dr. Albert Olszewski: [Emphases added]

My Friends,

I endorse and support former Secretary of State, Chief Elections Officer, and Public Service Commission Chairman Brad Johnson for U.S. Senator from the State of Montana.

Why Secretary Brad Johnson? Unlike many who will support the candidate anointed by “Out of State” Party Bosses, my support for Secretary Brad Johnson is based on a **Commonsense Process**. My choice is based on **Performance, not Personality**. It is based on **Principles, not Party Boss Power**. Party Bosses are trying to buy this election, but I believe Montana Republicans deserve a credible alternative to their handpicked puppet – and Secretary Johnson is that alternative. **He will be Montana’s independent voice in Washington, not Washington’s voice in Montana.**

There are three candidates in the Republican Primary for U.S. Senate.

Only Secretary Brad Johnson is **proven to be a Republican candidate to win the vote of Montanans in two statewide elections**. He was elected and served as our Republican Secretary of State and most recently as our Republican PSC Commission Chairman.

The other two candidates have **no previous experience, period**.

Of the three candidates for Republican U.S. Senate primary, only Secretary **Brad Johnson has proven himself to support the Montana Republican Party Platform 100%**. As a Goldwater/Reagan conservative, Brad has participated in promoting Republican policy positions as an elected public official. He has participated in improving our Party Platform as a voting member of the Republican **Party State Platform** Convention on several occasions.

The other two candidates have no experience with our Republican Party Platform, period.

Of the three candidates, **only Secretary Brad Johnson has been an active and involved Montana Republican for greater than one year!** Brad has been involved in the Montana Republican Party for over 40 years. He has served the MTGOP as a statewide voting member, and on the MTGOP executive board.

The other two candidates have no experience serving in the Montana Republican Party. They have been **invited guests** to every Montana Republican event since declaring they are Montanan Republicans one year ago or less.

Join me in supporting Secretary Brad Johnson as he campaigns to be Montana’s newest member of the United States Senate. He is the only candidate with real roots and real experience serving Montanans.

It is critical Montana Republicans elect a true and proven servant leader to represent Montana. Please thoughtfully consider supporting him with your vote and contributing financially to his campaign.

For Freedom,

Dr. Al Olszewski
Former State Senator, District 6.
Former State Representative, District 11
